

# Design 2 - MA2

Mountain View Interior Design

by

Jorun Pihl Bratteng

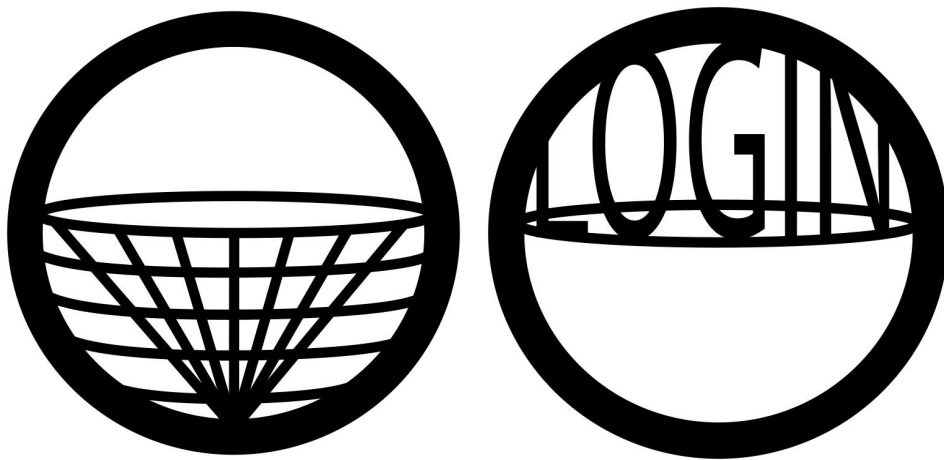

## INTRODUCTION PHOTO

For the introduction photo I had to improvise by cutting out the trees and paste in on to the new background that is the contrast colour in the logo. Brightness is to brighten it more up so it wouldn't look too dark.

## ICONS

For the icons I wanted a basket and login icons that matches the logo and does not look like every basket and login you see on other websites.

When I had the time this week I had a lot of fun with this assignment!

I have not had so much time for this module assignment since my two kids have been sick all week and I have been exhausted. I sended a message to Lindsay, but see has not seen it.
